

The Datt Capital Absolute Return Fund is a long-only, multi-asset fund targeting double digit returns over the medium term, managed by a performance orientated and differentiated boutique fund manager. Our objectives are to minimize the risk of permanent capital loss, achieve an absolute return throughout the economic cycle and temper the market risks typical of equity funds. We believe that utilizing a multi-asset approach reduces downside risk and volatility in returns.

FY19		2.6%	-1.22%	-4.8%	3.53%	-2.07%	6.97%	1.66%	0.76%	-3.64%	-2.45%	0.79%	1.57%

FY21	10.84%												10.84%

Asset Allocation for the Fund at July month end was:

CRE debt - 28%

Equities - 63%

Cash - 9%

The Fund performed well in July benefitting from its exposure towards precious metals which appreciated strongly over the month. Gold rose over 8% to over AUD\$2760/oz, whilst silver enjoyed a spectacular 30% rise to around AUD\$34/oz. In our opinion, much of this rise in precious metals has been driven by a shift in investor preference towards real assets as a consequence of monetary stimulus & debasement being experienced around the globe. An increase in authoritarianism and consequent rise in government distrust is also driving sentiment towards portable, durable and private real assets.

We remain orientated towards growth opportunities and special situations where we feel there remains considerable upside despite the forecast weaker macroeconomic environment. We continue to find interesting opportunities however; we do feel that caution is warranted going forward.
